

Main Street America Programs - 2023 Visitor Counts

This spreadsheet includes the total number of visitors in 2023 to each Main Street program in the 2023 MSA Network. The data in this post and the linked spreadsheet is provided through Placer.ai, a location analytics company which showcases trends in visitation using smartphone data that tracks users' location and duration of stay in a specified geography. Each person who visited a Main Street district for 10 minutes or more at least once in 2023 counts as a single "visitor." If a person visited multiple Main Streets in 2023, they are considered a single visitor in each of those places. Please reach out to msaresearch@mainstreet.org with any questions.
